👤 PROFILE

Graduate of School of Code Bootcamp, a full-time software engineering program that focuses on hands-on experience and project-based learning. Strong foundation in vanilla JavaScript and JavaScript frameworks. Proven ability to work in a team-oriented environment and deliver high-quality code under tight deadlines. Passionate about solving problems and building innovative solutions, eager to leverage skills and knowledge to make an impact as a Junior Software Developer.

🎓 EDUCATION

Learn PHP: Introduction Course
Codecademy
Aug 2023

Full-Stack Developer
School of Code Bootcamp
Sep 2022 – Feb 2023 | Remote
16 week intensive bootcamp with a curriculum on full-stack development, including HTML, CSS, vanilla JavaScript, React, APIs, NodeJS, databases, SQL, Cloud Hosting, UI/UX, and team projects every week aiming to solve real problems.

Medicinal and Pharmaceutical Chemistry
Loughborough University
Sep 2015 – Jun 2018 | Loughborough
Bachelor of science with a strong background in organic synthesis, pharmacology, and drug design. Proficient in various laboratory techniques and analytical instruments such as NMR, HPLC, and Mass spectrometry. Strong understanding of drug discovery and development processes.Strong analytical and problem-solving skills, with the ability to work independently and in a team environment.

📚 TECH STACK

Front-end frameworks and libraries: (JavaScript | React | TypeScipt | Next.js | HTML | CSS | Tailwind)

Back-end frameworks and libraries: (Node.Js (Express.js) | Nodemon | Morgan)

Testing (Jest | SuperTest | Cypress | Playwright)

Project Management (Figma | Trello | Kanban | Miro)

Tools (Git | GitHub | Netlify | Postman | VSCode |)

📁 PROJECTS

Cinemate - 404 Team Name Not Found
https://project-cinemate.netlify.app/
Jan 2023 – Feb 2023
Tech Stack: Typescript | Next.js | Supabase | Tailwind
I was part of a group project to create a Web app designed to help users keep track of all their movie recommendations in one place. We had daily stand-ups and pair programming which enabled us to orchestrate a smooth GitHub workflow.

Dictionary Web App
https://dictionary-zc7r.onrender.com/
Mar 2023 – Jun 2023
Tech Stack: Javascript | CSS | NodeJs | Playwright
I developed a responsive Dictionary web app with the main goal of allowing users to search for word meanings and definitions. Through the use of JavaScript and DOM manipulation, I gained a better understanding of these concepts while building the app. Additionally, I incorporated five different APIs to provide various details related to the searched word.

🧩 CURRENTLY WORKING ON...

Gem Restaurants
https://tk-gemrestaurants.vercel.app/
Jun 2023
Tech Stack: Next.js | CSS | Playwright
Gem Restaurants is a responsive web application designed to enable users to easily search for the best restaurants in any area.
